

I've been here a number of years. When I took over the Foster Grandparent Program, the first couple months I took a lot of time going through old records, old books, and old pictures. I came across old records and client files of our foster grandparents. I'm reading it, it says "Elizabeth Ann O'Hara." Like 1972 - in 1972 I was much younger and wouldn't have been in the Foster Grandparent Program. I'm thinking "Oh my gosh, that's my name, who is this?" So, I'm kind of intrigued. I went home a couple days later and said to my husband "I found this record." He says, "Oh, yeah. That's my grandmother." He never mentioned any of this during my whole process of being hired at PEACE, Inc. To me that was destiny. That was May 12, 1997 and I have been here 20 years. So, I think there was a reason I was supposed to be at PEACE, Inc.

Beth O'Hara

Foster Grandparent Program Director
